

Container Scrap Shear

We are specializing in the production of metal scrap shear for metal recycling. Our container shear machine is horizontal type & it's suitable for cutting metals with different cross-sectional shapes in the cold state. Such as round, square, trough, angular, I-shaped. Plates-shaped and various scrap metal structure in to small pieces. It brings convenience to the packaging, storage and transportation of metal scrap and also provides qualified charge for the smelters.

APPLICATION

The machine has a wide range of applications and is a processing equipment for metal recycling stations, factory foundries and mechanical construction industries.

FEATURES

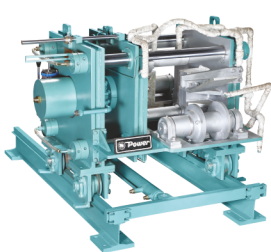

- Operations in auto mode for save human energy
- Production capacity up to 15 tons per hour
- Eco friendly no gases required.
- HARDOX is used as wear resistant plates
- Blades are made up of graded tool steel for high wear resistance and long life.
- The scrap feed in hopper, due to the movement of pre clamp the scrap automatically slips down and the cut scrap is pushed out from the front.
- Continuous raw material feed
- Lesser space required.
- The installation does not require any foundation or foot screw.

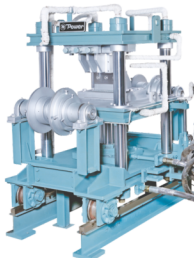

TECHNICAL SPECIFICATIONS

PARTICULARS	IN TERMS	PMPCS630	PMPCS800
Max. Cutting Force	TONS	630 (WITH 2 NOS CYL.)	800 (WITH 2 NOS CYL.)
Cutting Cyl. Stroke	MM	800	960
Max. Scrap Pressing Force	TONS	125	160
Scrap Pressing Cyl. Stroke	MM	670	830
Working Pre.	KG/SQ.CM	250	250
Electric Motors	KW	55X2=110	55X3=165
Electric Motor For PHE (Coil Cooler)	KW	3.7	7.5
PHE Capacity	KCAL/HR	30000	50000
Oil Tank Capacity	LTR	2000	4000
Press Box Size (L x W x H)	MM	2370 X 1400 X 1750	2670 X 1600 X 2030
Hopper Size (L x W x H)	MM	3525 X 2100 X 700	3825 X 2400 X 900
Production Capacity	TONS / HR	07 TO 10	10 TO 15
Operating Control	MODE	HMI & WIRELESS REMOTE	HMI & WIRELESS REMOTE
Cutting Blade Length	MM	1400	1600
Cutting Height	MM	400	500
Total Weight Of Machine	KG	32000	42000
